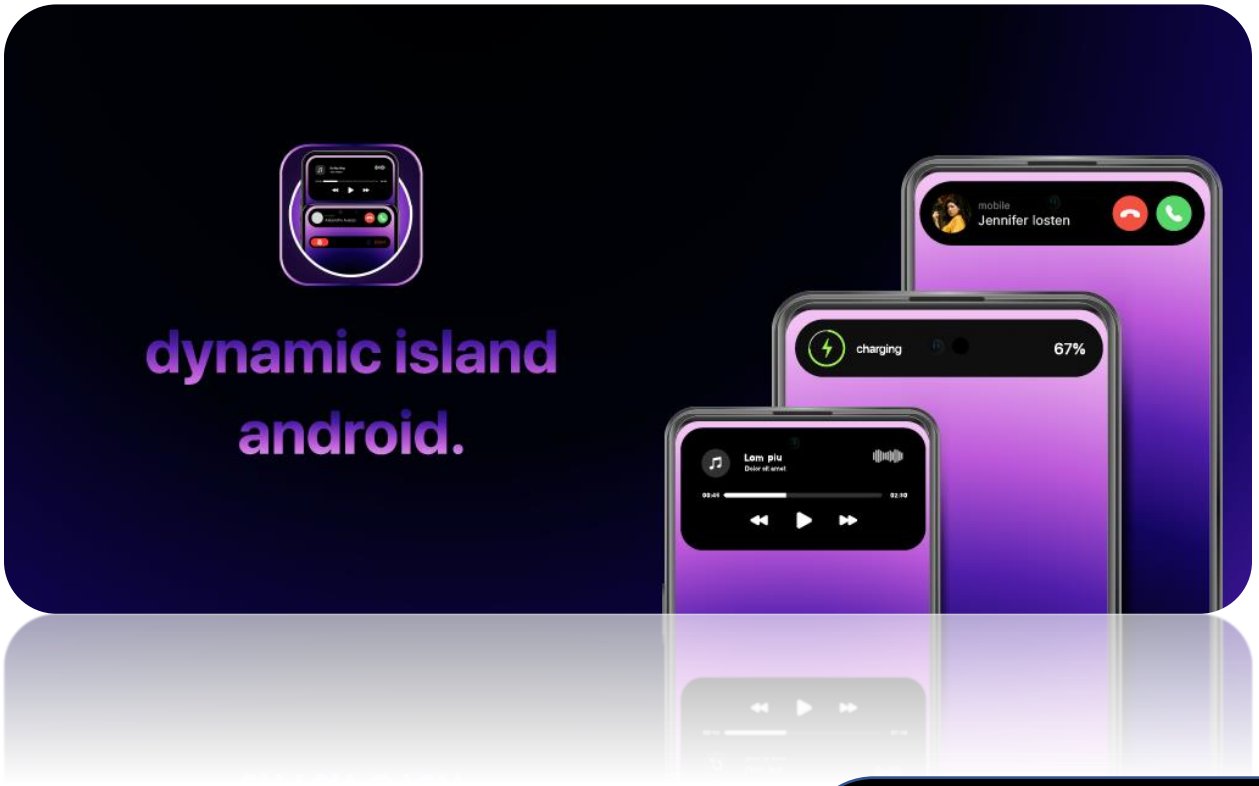
Dynamic Island for Android

The "Dynamic Island" is only accessible with the iPhone 14 Pro and iPhone 14 Pro Max. But not anymore!!! Experience one of the most prominent features of the iPhone 14 Pro, Dynamic Island, on your Android smartphone. All Android users can use this latest Dynamic Island notch for multitasking.



Dynamic Island is an interactive notch, a pill-shaped popup that changes in size and shape to show various alerts, information, notification, and interactions at dynamicspot. In dynamic island notch, users can check alters and notifications of current activity such as charging status, phone calls, lock & unlock status, the music you're playing, status and updates from various applications.
